

Lean Six Sigma

Employ the latest in smart operations management techniques

Six Sigma methodologies have taken the manufacturing world by storm. By embarking on a carefully designed plan for error-free operations, businesses can achieve substantial savings and remarkable improvements in efficiency.

Lean Six Sigma is a powerful offering that combines Six Sigma principles and applies them to your automated document factory (ADF). Now, through a comprehensive engagement, Pitney Bowes brings all the benefits of Six Sigma methodologies to your production mail operation.

Reduce your errors, streamline your processes, improve your bottom line

Our Lean Six Sigma services are designed to introduce your organization to one of operations management's great new innovations. With Lean Six Sigma at work in your ADF, you can expect:

- * Fewer errors
- * Higher productivity
- * Reduced costs
- * Greater operational efficiency

These improvements can have a significant impact on your production-mail operation and your entire enterprise.

If your enterprise already employs Six Sigma techniques, Lean Six Sigma will be a profitable addition to your management approach. If your organization is new to Six Sigma principles and practices, Lean Six Sigma is an excellent place to start.

Additional programs available today

Lean Six Sigma services are part of a series of Pitney Bowes Workflow Solutions education and professional services programs available to further enhance your operation performance:

- * Production Mail Management Training
- * Materials Procurement in ADF Operations Training
- * Operations Site Assessment
- * High-Speed Integration Services
- * Design and Layout Services
- * System Optimization Services
- * Best-in-Class ADF Assessment
- * Management Metric Development Services
- * Operations Review
- * ADF Management Development Program
