

5 key ways the DM Infinity™ Series drives performance, productivity and your bottom line.

Everything about the DM Infinity™ Series Digital Mailing System is designed to make your mailings more powerful, productive and profitable than ever before.

- 1 Lower postage costs** for mixed-weight mail with Weigh-On-The-Fly™ technology.
- 2 Increase throughput up to 5 - 20%** with faster speeds and fewer jams.
- 3 Reduce return mail costs** through improved print quality.
- 4 Easier postage reconciliation** due to fewer outsorts, reprints and stoppages.
- 5 Reduce maintenance requirements up to 66%** with an innovative, reliable component design.*

The DM Infinity™ Series is more than a USPS® mandate – it adds up to real ROI.

Only Pitney Bowes . . . gives you the option to immediately realize the gains of USPS®-compliant, high-volume metering. The DM Infinity™ Series meets the latest postal security requirements, and provides on-going reductions in operating expenses.

VIRTUALLY NON-STOP PERFORMANCE.

Designed to deliver powerful economies and measurable productivity gains that make mailings more profitable than ever before.

NO-MESS, COST-EFFECTIVE INK CARTRIDGES

No time wasted cleaning up messy red meter ink; our high-capacity cartridges are clean and quick to load.

INK-SAVING INDICIA EXTENDS CARTRIDGE LIFE

New USPS®-approved Controlled Acceptance Indicia uses nearly 50% less ink than the Full Letterbox Indicia.

For on-going savings on your production mailings, contact us today.
